Has Your Vehicle Been Recalled?

SafeCar

The National Highway Traffic Safety Administration (NHTSA) has introduced a new website and app - SafeCar - aimed at helping drivers quickly learn of any recalls, investigations or complaints about their vehicles.

The resource asks the driver to enter their vehicle identification number (VIN). The resource then provides information about recalls regarding the driver's specific model of vehicle.

Also, the SafeCar resource advises the driver of local dealerships that will make free repairs.

One in four vehicles subject to recall

NHTSA decided to offer this SafeCar resource because one in four vehicles on the road has an unrepaired recall. Check it out.

Respectfully,

William C. Faber, Jr.
